Important Information:

For more information, refer to the Customer Agreement or speak with a Sales Representative. Service is subject to the Customer Agreement, which you should read before activating service. Credit approval required. Billing, shipping and end-user address must be within the Verizon Wireless licensed and service areas where the wireless phone number is issued.

In some rare instances, dialing *228 may alter your Calling Plan's Airtime Rate and Coverage Area. The accuracy of the roaming indicator on your phone cannot be guaranteed. Charges for calls will be based on the cell sites used and time of day at the telephone switching office that carries your call, which may be different than the time of day shown on your phone. Rates do not apply to credit card or operator-assisted calls, which may be required in certain areas. Usage rounded up to next full minute. Unused allowance minutes lost. Charges start when you first press **SEND** or the call connects to a network on outgoing calls, and when the call connects to a network (which may be before it rings) on incoming calls. Time may end several seconds after you press **END** or the call otherwise disconnects. For calls made on our network, we only bill for calls that connect (which includes calls answered by machines). Calls to 'toll-free' numbers are toll-free; you will be billed airtime. Billing for airtime and related charges may sometimes be delayed. Delayed airtime will be applied against the included airtime for the month when you actually made or received the call, even though such charges may show up on a later bill. This may result in charges higher than you'd expect in the later month.

Friends & Family

My Verizon required to set up and manage Friends & Family numbers. See Sales Representative and brochures for details.

Each qualifying line's unused monthly anytime voice minutes will pass to other qualifying lines that have exceeded their monthly anytime voice minutes during the same monthly billing period proportionally based on the number of minutes that such lines have exceeded their allowance. Sharing may only be available among lines activating wireless service in the same Verizon Wireless market. International dialing, directory assistance, and features may be categorized together, billed as "other charges", and not detailed on your bill.

Data Plans and Features:

Permitted Uses

You can use our Data Plans and Features for accessing the Internet and for such things as: (i) Internet browsing, (ii) email, (iii) intranet access (including accessing corporate intranets, email and individual productivity applications made available by your company), (iv) uploading, downloading and streaming of audio, video and games, and (v) Voice over Internet Protocol (VoIP).

Approximate Data Usage Examples:

Basic information and examples showing the approximate data usage for several common Internet activities appear in the chart below.

The speed of the Verizon Wireless data network is measured in Kilobits (kb) per second. However, the amount of data transmitted over the Verizon Wireless data network is measured in kilobytes (KB), megabytes (MB) or gigabytes (GB).	
Examples	
Application	Approximate Size
E-mail (1 text page without attachments)	3 KB
Word Document (5 text pages)	70 KB
Typical Web Page lookup	300 KB
Low Resolution Digital Photo	500 KB
PowerPoint Presentation (20 pages text & light graphics)	3 MB
Note: The above examples are just estimates, based on approximate size assumptions. Actual file sizes and user experiences will vary.	

Data Plans and Features:

Prohibited Uses

You may not use our Data Plans and Features for illegal purposes or purposes that infringe upon others' intellectual property rights, or in a manner that interferes with other users' service, that violates trade and economic sanctions and prohibitions as promulgated by the departments of Commerce, Treasury or any other U.S. government agency; that interferes with the network's ability to fairly allocate capacity among users or that otherwise degrades service quality for other users. Examples of prohibited usage include: (i) server devices or host computer applications that are broadcast to multiple servers or recipients.

such that they could enable "bots" or similar routines (as set forth in more detail in (ii) below) or otherwise denigrate network capacity or functionality, (ii) "auto-responders," "cancel-bots," or similar automated or manual routines that generate amounts of net traffic that could disrupt net user groups or email use by others, (iii) generating "spam" or unsolicited commercial or bulk email (or activities that facilitate the dissemination of such email), (iv) any activity that adversely affects the ability of other users or systems to use either Verizon Wireless' services or the Internet based resources of others, including the generation or dissemination of viruses, malware or "denial of service" attacks, (v) accessing, or attempting to access without authority, the information, accounts or devices of others, or to penetrate, or attempt to penetrate, Verizon Wireless' or another entity's network or systems, or (vi) running software or other devices that maintain continuous active Internet connections when a computer's connection would otherwise be idle, or "keep alive" functions, unless they adhere to Verizon Wireless' requirements for such usage, which may be changed from time to time. You may access and monitor your own data usage during a particular billing period, including during the Return Period under your Worry Free Guarantee, by accessing My Verizon online or by contacting Customer Service. We further reserve the right to take measures to protect our network and other users from harm, compromised capacity or degradation in performance. These measures may impact your service, and we reserve the right to deny, modify or terminate service, with or without notice, to anyone we believe is using Data Plans or Features in a manner that adversely impacts our network. We may monitor your compliance, or other subscribers' compliance, with these terms and conditions, but we will not monitor the content of your communications except as otherwise expressly permitted or required by law. [See verizonwireless.com/privacy] Data sessions automatically terminate after 24 hours of activity. Data session is inactive when no data is being transferred. Data session may seem inactive while data is actively being transferred to device, or may seem active when it is actually cached and not transferring data. You **MUST** press or click **END** or **DISCONNECT** button to ensure that session disconnects and charges cease. Thirdparty applications may automatically reinitiate data sessions without you pressing or clicking **SEND** or **CONNECT** button. For the Palm® Treo™ 650, the only way to disconnect your data session is to press the home key until you see "All" or "System," then select the "Prefs" icon, then select "Network" from the drop-down list, and then "Disconnect." You may be able to send or receive voice calls when your data session is inactive. When this occurs, charges apply simultaneously for voice calls in accordance with your Calling Plan. You are responsible for maintaining virus protection when accessing service.

PDA/smartphone and BlackBerry® Plans: These VZEmail plans cannot be used (1) for access to the Internet, intranets, or other data networks except as the device's native applications and capabilities permit, unless you subscribe to Mobile Broadband Connect, or (2) for any applications that tether your device to laptops or personal computers other than for use of the Wireless Sync or the BlackBerry solution, unless you subscribe to Mobile Broadband Connect.

Wireless Sync: Compatible wireless device required. The monthly allowance applies only to 1xRTT and EV-DO data transmissions, not to voice or other (Quick 2 Net or dial-up) data transmissions. When traveling outside of the National Enhanced Services Rate and Coverage Area, you may be charged at the "other data" rate for data calls. Customers with devices that support Quick 2 Net service will be billed minutes of use or "other data" rate according to their Calling Plan. In order to use Wireless Sync, your PC Monitor or Wireless Sync Enterprise Server must be on and in a condition to receive your corporate email. Wireless Sync software updates will be sent to your device and will be charged as a data call.

The BlackBerry Solution from Verizon Wireless: The wireless data capability of the BlackBerry device functions only within the National Enhanced Services Rate and Coverage Area. Verizon Wireless NationalAccess service is not available with the BlackBerry solution. With the BlackBerry solution, the first 2 kilobytes (KB) of each email are initially received on the BlackBerry device and you can simply request to receive additional 2KB increments. Some email attachments (Microsoft® Office Word, Excel®, PowerPoint®, Corel® WordPerfect®, Adobe® PDF, and ASCII text) are delivered to the BlackBerry device when requested by the end user. ZIP file browsing is available with BlackBerry Device Software v3.7. With BlackBerry Device Software v4.0, an HTML Internet browser has been added to the service in addition to full wireless PIM (Calendar,

Contacts, Notes&Tasks) synchronization when using the BlackBerry device with a BlackBerry Enterprise Server™ Graphics in emails and attachments are not delivered to the BlackBerry device. When the BlackBerry device reaches its memory storage capacity, email stored on the device will automatically be deleted from it, starting with the oldest emails first. BlackBerry Desktop Software using BlackBerry Desktop Redirector only supports Microsoft Exchange environments. Up to ten POP3/IMAP and ISP email accounts are supported through use of the BlackBerry Internet Service™

Verizon Wireless Calling Plans, Rate and Coverage Areas, rates, agreement provisions, business practices, procedures and policies are subject to change as specified in the Customer Agreement

Business Share Option

Share option is available only if a minimum of five (5) Nationwide for Business or Nationwide Email Calling Plans for Business lines are activated and maintained on the same account, and the Share option is selected for each line. If at least five lines are not maintained on the account, the Share option will be removed from the remaining lines. Each qualifying line's unused monthly anytime voice minutes will pass to other qualifying lines that have exceeded their monthly anytime voice minutes during the same monthly billing period proportionally based on the number of minutes that such lines have exceeded their allowance. UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF FLORIDA

CARVER RANCHES WASHINGTON
PARK, INC., on behalf of itself and all
others similarly situated,

Plaintiffs,

vs.

NEXTEL SOUTH CORPORATION, d/b/a
NEXTEL COMMUNICATIONS,

Defendant.

FINAL JUDGMENT AND ORDER OF REMAND

THIS CAUSE is before the Court on Plaintiff Carver Ranches' August 19, 2004 Motion to Remand [DE-9], and the Court having considered Defendant Nextel's August 30, 2004 Opposition [DE-12] Defendant Nextel's July 26, 2004 Supplemental Authority [DE-6] Plaintiff's September 10, 2004 Reply [DE-14] and Defendant's Request for Oral Argument herein filed September 22, 2004, finds as follows:

1. On May 17, 2004 Plaintiff filed a Class Action Complaint in the Circuit Court of the Fifteenth Judicial Circuit in and for Palm Beach County, Florida, alleging a violation of Florida's Deceptive and Unfair Trades Practices Act, Fla. Stat. § 501.201 et. seq. (FDUTPA). Plaintiff complains that agreements which require the possible payment of an early termination fee constitute a violation of FDUTPA.

2. On June 30, 2004 Nextel removed this case to federal court contending that the early termination fee is not a penalty but a rate and is therefore subject to complete federal preemption. See Bastien v. AT & T Wireless Services, Inc., 205 F. 3d 983, 990 (7th Cir. 2000).

A handwritten signature or set of initials in the bottom right corner of the page.

3. Plaintiff has moved to remand this action to state court citing Smith v. GTE Corporation, 236 F. 3d 1292, 1312 (11th Cir. 2001) for the proposition that there is no indication that Congress intended to completely preempt state law in this federal act. See also Sapp v. AT & T Corp., 215 F. Supp. 1273, 1278 (M.D. Ala. 2002)(extending the rationale of Smith to cellular phones). The burden of establishing federal jurisdiction falls on the party seeking removal. Kokkonen v. Guardian Life Insurance Co. of America, 114 S. Ct. 1673 (1994).

4. Generally, a defendant may remove "any civil action brought in a State court of which the district courts of the United States have original jurisdiction" City of Chicago v. International College of Surgeons, 118 S. Ct. 523, 529 (1997)(quoting 28 U.S.C. § 1441(a)). In determining whether removal is correct, thus, "propriety depends on whether the case originally could have been filed in federal court." Caterpillar Inc. v. Williams, 107 S. Ct. 2425, 2429-30 (1987). The Court is duty-bound to inquire into and resolve questions of its jurisdictional power, and the Court must remand any case in which it determines it lacks subject matter jurisdiction. See 28 U.S.C. § 1447. Typically, under the well-pleaded complaint rule, "federal jurisdiction exists only when a federal question is presented on the face of the plaintiff's properly pleaded complaint." Caterpillar, Inc. v. Williams, 107 S. Ct. 2425 (1987)(citing Gully v. First National Bank, 57 S. Ct. 96 (1936)). A case is usually not removable "if the complaint does not affirmatively allege a federal claim." Beneficial National Bank v. Anderson, 123 S. Ct. 2058, 2062 (2003). Here, Plaintiff's complaint relies exclusively on state law and does not affirmatively allege any federal claim.

5. The doctrine of complete preemption is a narrow exception to the well-pleaded complaint rule. See Stern v. International Business Machine Corp., 326 F. 3d 1367, 1370-71

(11th Cir. 2003)(“the doctrine of complete preemption is extremely limited and has been found by the Supreme Court to exist in only two substantive contexts”)¹. Complete preemption exists only when “the preemptive force of a statute is so ‘extraordinary’ that it converts an ordinary state common-law complaint into one stating a federal claim for purposes of the well-pleaded complaint rule.” Metropolitan Life Insurance Co. v. Taylor, 107 S. Ct. 1542, 1547.

Defendants assert that Plaintiff’s state law claims are completely preempted by the Federal Communications Act (“FCA”), 47 U.S.C. § 151 et seq. and its provisions that govern rates and suits based thereon. The Supreme Court has established that the central issue in determining if federal law completely preempts a state law claim is congressional intent. See Beneficial, 123 S. Ct. at 2064. Section 332 of the FCA prohibits states from regulating rates charged by commercial mobile service carriers. However, it is plain from the language of the FCA and has been determined by the Eleventh Circuit that state law is not completely preempted by the FCA. Congress provided in the FCA that “[n]othing in this chapter contained shall in any way abridge or alter the remedies now existing at common law or by statute, but the provisions of this chapter are in addition to such remedies.” 47 U.S.C. § 414. Citing this language, the Eleventh Circuit stated that “the existence of this type of ‘savings’ clause which contemplate[s] the application of state-law and the exercise of state-court jurisdiction to some degree ... counsels against conclusion that a purpose behind the ... Act was to replicate the unique preemptive force of the LMRA and ERISA.” Smith, 236 F. 3d at 1313 (quoting Blab T.V. of Mobile, Inc. v.

¹ERISA, Pilot Life Insurance Company v. Dedeaux, 107 S. Ct. 1549 (1987); and LMRA, Ayco Corporation v. Aero Lodge, 88 S. Ct. 1235 (1968), but also see Price-Anderson Act, El Paso Natural Gas Co. v. Neztasie, 119 S. Ct. 1430 (1999) and National Bank Act, Beneficial National Bank v. Anderson, 123 S. Ct. 2058 (2003).

Comcast Cable Communications, Inc., 182 F. 3d 851, 857-58 (11th Cir. 1999)). Numerous other district court decisions in cases asserting similar or identical claims have reached the same conclusion that the FCA does not completely preempt state law claims. Esquivel v. Southwestern Bell Mobile Systems, 920 F. Supp. 713, 715 (S.D. Tex. 1996); Lewis v. Nextel Communications, Inc., 281 F. Supp. 2d 1302 (N.D. Ala. 2003); Moriconi v. AT&T Wireless PCS, LLC, 280 F. Supp. 2d 867, 872-73 (E.D. Ark. 2003) but see Phillips v. AT&T Wireless, 2004 WL 1737385 (S.D. Ia. July 29, 2004) reconsideration denied 2004 WL 1968676 (S.D. Ia. Aug. 30, 2004).

6. Moreover, the court does not find that an early termination fee is a rate.

7. However, the law in this removal area is not so settled so as to warrant this court imposing costs and attorneys fees on Nextel.

According, for the foregoing reasons, it is **ORDERED AND ADJUDGED** as follows:

1. Plaintiff's Motion for Removal [DE-9] is hereby **GRANTED**. This case is remanded to the Fifteenth Judicial Circuit of Florida.

2. Defendant's Motion for Oral Argument herein filed September 22, 2004 is hereby **DENIED**.

3. Plaintiff's request for attorneys fees and costs [DE-9-2] is hereby **DENIED**.

3. The Clerk shall take all necessary steps to effectuate this removal and close this

federal case.

DONE AND ORDERED in Chambers at Fort Lauderdale, Broward County, Florida,
this 22 day of September, 2004.

WILLIAM P. DIMITROULEAS
United States District Judge
